Work Experience

EklavyaSolution

Software Developer

Oct 2024 – Present

- Built a complete front-end GUI from scratch using ReactJS, Redux, and Tailwind, incorporating routing, dashboards, and authentication, leading to an approximate **30% revenue increase**.
- Designed and integrated RESTful APIs with scalable CRUD operations using Node.js, improving the back-end reliability and reducing load time by **20%**.
- Strengthened security by limiting excessive requests, blocking unauthorized domains, encrypting traffic, validating inputs, and handling failures securely without exposing system details.

Software Development Intern

May 2024 – Oct 2024

- Assisted in building UI features with ReactJS and Redux, improving responsiveness and user experience.
- Contributed to increased customer engagement through impactful UI enhancements and optimized workflows.
- Collaborated with senior developers on back-end API integration using Node.js.

Education

National Institute of Technology Agartala

Bachelor of Science in Chemistry

2020 – 2024

Skills

- **Programming Languages:** C++, JavaScript, TypeScript, SQL
- **Frameworks & Libraries:** React, Redux, Node.js, Express, Tailwind CSS
- **Databases:** MongoDB, PostgreSQL, Firebase
- **Tools & Platforms:** Git, Docker, Postman, CI/CD
- **Core Competencies:** Data Structures and Algorithms, DBMS, Operating Systems, Computer Network, RESTful & GraphQL API Development, API Testing

Projects

Chat Bloom [Code](#) | [Live](#)

React, Node.js, Express, MongoDB, Socket.io

- Built a real-time chat application that supports online status, instant messaging, and image sharing.
- Implemented secure authentication, profile management, and theme customization for improved UX.
- Developed a responsive UI with Tailwind CSS & DaisyUI and managed global state using Zustand.

Second Brain App [Code](#)

React, TypeScript, Node.js, Express, MongoDB

- Developed a productivity tool allowing users to save and organize YouTube/Twitter links.
- Enabled content management with tagging and personal dashboards.
- Integrated secure sharing functionality for stored resources.

TutoraTech [Code](#) | [Live](#)

React, HTML, CSS

- Launched the MVP of a startup offering learning and career growth services.
- Built a platform featuring training & internships, resume writing, mock interviews, job referrals, and career guidance.
- Designed a fully responsive and optimized website for seamless desktop and mobile user experience.

Academic Achievements

- Solved 1000+ coding problems across various platforms
- Completed *The Complete 2023 Web Development Bootcamp* on Udemy
- Completed *System Design Masterclass (2025)* on Udemy
- Completed the "OOPS in C++" Guided Path on CodeStudio
- Cleared HackerRank SQL (Basic) test
